SNWA is filing two temporary applications at Wahoo Ranch for the 2019/2020 Irrigation Season. These two temporary applications can be seen in the below table.

App No.	Base Right (Permit)	POD Change?	POU Change?	New POD	Diversion Rate (CFS)	Duty (AFA)
1	79723	Yes	No	SPR 7032I	1.11	260.00
2	79725	Yes	No	SPR 7033I	0.92	170.00

Please note that these two applications will supersede two previously filed Temporary Applications filed for Wahoo Ranch which are currently RFA. The RFA temporary applications which will be replaced with these new temporary applications are 88012T and 88013T. The reason only two temporary applications are being filed at the Wahoo Ranch for 2019/2020 is because over the past few irrigation seasons, less water has been pumped from SPR 7032I and SPR 7033I than what has historically been used, and a permanent transfer has recently been permitted (85107).

Please note that these temporary change applications are being filed because permanent change applications to transfer and balance water rights within Wahoo Ranch filed in 2016 are currently RFA.

Please note that SPR 7032I and SPR 7033I have previously been referred to as “SPR 70321” and “SPR 70331”, respectively.
